"Vancouver is an international hotbed for visual media - and a global gateway for all related creative communities. And yet, the enormous impact of the city and province's music community on the world stage is often underappreciated or overlooked," says Tony Scudellari, VIFF Amp Co-curator and Senior VP of Television Music at Sony Pictures Entertainment. "Among our goals is to shine a spotlight on some of the province's extraordinary music-related talent and develop long term business opportunities and creative collaborations with international tastemakers in the music for visual media space."

"Emerging professionals have the extraordinary opportunity to meet and learn from internationally acclaimed creators while forming new connections through inclusion, mentorship, and endless opportunity," adds Rob Calder, VIFF Amp Co-curator and Founder of Secret Study. "Each year, the connections made at Amp have led to career developments for some incredible B.C. talent, including multi Emmy-nominated composer and Amp 2021 speaker Natalie Holt who hired local singer/songwriter Bukola Balogun to record a song for the new 20th Century Studios film *The Princess*. We also have Vancouver-based composers Brian and Caleb Chan returning as speakers this year. The Chan Brothers attended Amp in 2020 where they met Frank Garcia from DreamWorks who hired them to compose for two animated series shortly afterward. VIFF Amp is the place for building these connections within the film and music industry."
